

26 November, 2018

Dear Parents,

The Christmas and New Year celebrations as well as having religious and cultural meaning for many, share a common message about giving, sharing food, fun, and quality time with family. For some, however, it is just another day. There are no presents, no good food or family members to celebrate with.

This weekend our Christmas tree will be put up and decorated in the atrium, As in the past we have the opportunity to help some children and young adults in need. Through a variety of charities we can support learning disabled adults, underprivileged children and homeless teens.

Helping and giving is easy, we will hang decorations that will include photographs on the tree in the atrium with the age and name of a child/person in need. Simply choose one, buy a gift (up to B2000) and then make sure the decoration is taped to the gift and left under the tree.

Thank you for your help in making this holiday season 'real' for some children in need.

Best holiday wishes,

Mr. Karl
