

### **G3 TAL and Culture Studies**

Thai as an Additional Language (TAL) is for those students who are non-Thai Nationals. It approaches language learning and culture from a basic formative stage, differentiated for the learning needs of the students and their level of language acquisition. Both of these Thai language courses are designed to meet the needs of the students in our school. The courses focus on effective communications, oral, written, and visual (viewing and presenting). By learning about the Thai language, and learning through conversation, the program nurtures an appreciation of the richness of the Thai language; as well as an ability to use language as a tool to express ideas, thoughts, and feelings. It encourages a desire to learn, a love a literature and Thai culture, and pride of Thai heritage. It also focuses on a communicative approach to helping students become more fluent and effective communicators who are expanding their awareness and understanding of Thai culture in cross-cultural situations. The Thai program also explores Thai culture and history including geography, the arts, customs, and governing systems.

**Routine Communication for TAL (KG-G5):** Students will get a communication folder on Monday and should return it by Thursday once every two weeks. It provides an opportunity for the parents to know the progress of their children.

If you need to communicate or more information regarding TAL program, please kindly contact Kru Tik: [ratchaneewan.bi@kis.ac.th](mailto:ratchaneewan.bi@kis.ac.th)

### **TAL General Goals (Beginner Level)**

- To develop listening and speaking skills
