

October 20, 2021

Dear KIS Community,

I have some very exciting news to share with you. KIS International School has received approval to reopen based on our recently submitted application to the MOE.

In order to facilitate a smooth and safe transition back to campus, we will return to on-campus learning with a staggered start as follows:

- Secondary School will begin on Monday, November 1.
- Primary School will begin on Monday, November 8.

More information will be available this Friday in our weekly KISLetter as we know there will be a lot of questions. We will include a survey to parents to advise your intentions regarding sending your child(ren) to campus or continuing with remote learning full time. In addition, each principal will soon be sending division-specific reopening details.

Our opening date has been carefully considered with community safety and a high quality learning program as our main goals. Over the next few days, you will receive detailed plans for our campus reopening and response in the event of any infection cases.

Thank you again for your support as we transition back to campus.

We are looking forward to welcoming your child(ren) back soon.

Sincerely,

Paul Johnson  
Head of School
