

#### CHORUS

Come join us in our circle of friends.  
There's always room for one more.  
A circle that never ends,  
All you do is open up the door.

Have you ever been left out?  
Have you felt alone, Have you ever needed  
A friend to call your own?  
There is someone out there, who's feeling just like you,  
Open up your circle, what's all you've got to do.

#### CHORUS

Come join us in our circle of friends.  
There's always room for one more.  
A circle that never ends,  
All you do is open up the door.

When you're on the outside, And you're looking in.  
Life can seem so empty, when you don't fit in.  
There is someone out there, Who's feeling just like you,  
Open up your circle, That's all you have to do.

#### CHORUS X2
